# TIME TO SHINE

Achieving a glowing diamond-like luminosity can be your new reality with Mary Kay's latest brightening skincare

Ever wonder why your skin is dry and lacklustre? With the humidity, pollution and temperature fluctuations that we are exposed to, our complexion starts to dull. As we age, our bodies become less equipped to heal the damage.

## SHINING START

Restore your skin's clarity with the new Mary Kay MelaCEP Plus+ Luminous System. Designed specially for Asian skin, this five-piece range is powered by a unique proprietary MelaCEP Plus+ Luminous Complex and a purifying shiitake mushroom extract.

It addresses the five pillars of skin luminosity – translucency, brightening, purity, even skin tone and hydration.

## BRIGHT AND CLEAR

Ideal for even sensitive skin types, Mary Kay's MelaCEP Plus+ Luminous System consists of a Foaming Cleanser, Freshener, Ultimate Serum, Ultimate Cream and Mask – all formulated to provide hydration and brightening benefits that last over time.

With the dermatologist-tested MelaCEP Plus+ Luminous System, revel in a glowing visage in no time!

### Spotlight On: MelaCEP Plus+ Luminous Complex

The three key ingredients that make up its signature component are:

- 1 Edelweiss:** This extract has been found to tackle melanin within the skin layers, helping to reduce skin discoloration.
- 2 Algae:** Helps to lighten the appearance of pigmentation on skin surface.
- 3 Vegetable amino acids:** Improves skin brightness, evens out your skin tone and balances the visible contrast of dark spots on the skin.
